SUMMARY

Researcher & Librarian interested in Open Science, Data, Reproducibility, Transparency in Research Workflows

RECENT PROJECTS

Open Science Team Agreements (2022-)

- Outgrowth of Bay Area Open Science Group collaboration. The template gives researchers a practical tool to understand and advocate for open science practices at a broader scale within their laboratory or community.

Seismica Journal (2021-)

- Founding Executive Editor, responsible for promoting open science, data access and inclusive workflows.

Earth Science Citation Replication Project (2019-2020)

- Quantitative, reproducible study that examined the publishing habits of Earth Science researchers

EXPERIENCE

UC Berkeley Library

2019 – Present

Open Science Librarian

Berkeley, CA

- Promote open science tools and principles; provide outreach to researchers and students; piloted open workflows workshop series
- Fostered open science community through Bay Area Open Science Group
- Created Virtual Online Library Tutorials (ucblib.link/volt) to provide asynchronous instruction on open workflows

UC Berkeley Library

2014 – Present

Earth Science Librarian

Berkeley, CA

- Performed collection management, reference, outreach and instruction for Earth and Planetary Science, Physics, and Astronomy departments. Performed collection development for Chemistry (2015-16, 2018-19)

UC Berkeley Library

2011 – 2014

Reference Assistant - Bioscience and Natural Resources Library

Berkeley, CA

Stanford University

2005 - 2008

Earth Sciences Librarian

Stanford, CA

EDUCATION

Williams College

1998

Bachelor of Arts in Geology and Art History

Williamstown, MA

University of California, Berkeley

2002

Master of Arts in Geography

Berkeley, CA

San Jose State University

2003

Master of Library and Information Science

San Jose, CA

SKILLS

Languages : Python, R, HTML/CSS, SQL, LaTeX

Tools : Tableau, Jupyter Notebooks, Google Analytics, GitHub, GitHub Pages/Jupyter Book
